PERSONAL PROFILE

Frontend Developer with hands-on experience in building responsive and user-friendly web interfaces using JavaScript, TypeScript, Next.js, and Tailwind CSS. Experienced in developing competition-level projects and organizational websites, with a strong focus on clean UI, performance, and usability. Actively seeking opportunities to grow as a frontend engineer in real-world projects.

PROFESSIONAL EXPERIENCE

Web Developer — Freelance   2023 - Present
- Built and deployed responsive company profile and landing page websites for small business clients.
- Implemented clean UI using Tailwind CSS and JavaScript, focusing on usability and performance.
- Worked directly with clients to gather requirements and iterate on design feedback.
- Delivered projects within agreed timelines and scope.

PROJECTS

Workshop UKM PCC   November - December 2025
- Built and deployed a responsive organizational profile website and landing page for UKM PCC.
- Implemented a responsive and user-friendly interface using Next.js and TailwindCSS.
